

STAKEHOLDER ENGAGEMENT PLAN		
Project Name	Freight Shield	
Name	About the Stakeholder	How to Engage the Stakeholder
Tim Maciag	Project Supervisor, teaching both the classes for the capstone project.	<b>Provide Information:</b> Regular updates about projects, in the form of course assignments. Might also be a pay close attention, but do that for the feedback we get.
Yogesh Sharma	Project Mentor, assigned to our group	<b>Pay close attention:</b> To his guidance, since he's acted as a mentor for other projects, any advice is probably helpful
Drivers	Part of the user base. Could use the system to contact distributors and receive contracts. Focusing on a subset of drivers One feature involves	<b>Meet requirements:</b> One major part of our pitch involves the logbook, need to get that as a feature, if nothing else. Also arranging contact, but the situation is a bit different.
Distributors	Part of the user base. Could use the system to contact drivers and assign contracts. One feature could involve showing them the status of their contacts.	<b>Meet requirements:</b> Arranging contact information/meetings to get a better idea of their requirements and current systems. Half the user experience should be built for their needs
